MISSION

NMGK products are the choice of the modern consumer who loves natural taste and can always be sure of high quality!

We appreciate the simple joys of life and create products that make these moments even more enjoyable. After all, with our sauces and mayonnaises, the taste of any dish will sparkle brighter, and our margarines will ensure the success of even the most complex baking.

NMGK Company is striving to improve the people's living standards by setting new standards in production and providing a huge choice for everyone.

OUR QUALITY

The NMGK Group of Companies forms a full production cycle and provides the company's capacities with raw materials, the quality of which is controlled at all stages of production: from sunflower seeds to finished goods warehouses and shops.

The company is constantly investing in innovative technologies, research and development. It works on creating innovative products that will exceed consumer expectations and create new trends in the industry.

Effective management of the NMGK product range allows us to create the best commercial offer for the company's customers.
